

# CQG Trader

CQG Trader helps address the needs of traders who do not require technical analysis tools. We also have another version of the platform available to clients: CQG Lite.

## Features

- There are a number of ways to view the data streaming to CQG Trader, from the standard spreadsheet format to the look of big boards at the exchanges;
- The Orders and Positions window provides the functionality to set up accounts and keep track of all your outstanding and filled orders in one window;
- Customizable layout and quote boards;
- Multiple order entry methods including drag and drop and one-click trading;
- Advanced order types are available including trailing stops, stop limit and Order Cancels Order;
- Real-time quotes;
- DOMTrader feature provides access to four different markets at the same time for those trading more than just one market;
- CQG Lite displays best bids and best offers, but not Market Depth, or allow for trailing stops or Order Cancels Order;
- Available news services include Dow Jones Newswires and The Hightower Report; and
- There is a demo available for CQG Trader.
